3. HOW TO PLAY

On each run, race down to the finish as fast as you can while time remains.

Ski over moguls and perform freestyle moves for solo bonus points.

Obstacles: Will cause skier to tumble and possibly fall.

Flags:
- Missed flag will cause skier to snowplow and slow down.
- Hit flag will cause skier to tumble but not fall.
- Ski around proper side of flag for uninterrupted skiing.

Moguls:
- Will cause skier to "Catch Some Air" (become airborne) — Also slow down somewhat.
Freestyle Skiing:

By skiing over a mogul (Do not press JUMP button.) and then pressing the control pad down while airborne, you can perform freestyle tricks. The longer you hold the control pad down, the more freestyle points you earn. If you do not release the down control before you land, your ski tips will catch in the snow and you will tumble and possibly fall.

Solo Bonus Points:

Your total solo bonus is the sum of your time remaining on the clock at the completion of the last run and your freestyle points from the last run.

At the beginning of each run after the qualifying run, you receive your solo bonus points. These points are used for solo skiing — skiing alone without the bothersome drone skiers.

Example: 50 points of total solo bonus would give you 50 seconds of solo skiing commencing with the start of the current run.
